THE SIXTY-FOURTH REPORT OF THE REGISTRAR-GENERAL ON THE VITAL STATISTICS OF QUEENSLAND FOR THE YEAR 1923.

The 1923 Annual Report on the Vital Statistics for the State of Queensland is herewith presented, the following tables enumerating and classifying the births, marriages, and deaths which occurred during the year.

On the 4th April, 1921, the Commonwealth Government took a census of the people of Australia, but the compilation of the tables and report thereon is still incomplete.

The estimated mean population of the State was 802,748 persons, on which figure the birth, marriage, and death rates have been based.

BIRTHS.

The births registered during the year numbered 19,984—10,169 males and 9,815 females—four less than in the previous year of 1922. The decline in the birth rate not only in Queensland but in the other Australian States is matter of grave national concern, and, with the limited immigration from other countries, will in time be reflected in future population estimates. The birth rate for Queensland fell from 27·58 in 1920 per thousand of the mean population to 24·89 in 1923.

MARRIAGES.

5,815 marriages were registered in Queensland during 1923, being a decline of 61 on those of the previous year. Included in these marriages were 205 males and 1,239 females under the age of 21 years. 5,602 marriages were celebrated by ministers and 213 in the registry offices. The rate per 1,000 of the mean population fell from 9·08 in 1920 to 7·24 in 1923. The decline in the marriage rate is not confined to Queensland, but also occurs in the other Australian States and, as stated above, is reflected in the declining birth rate. The following are the number of marriages celebrated by the principal religious denominations:—

Church of England	1,752
Roman Catholic	1,350
Methodist	911
Presbyterian	880
Other Denominations	709
And by Registrars	213
Total	5,815

DEATHS.

The deaths numbered 7,893, of whom 4,699 were males and 3,194 females. This represents an increase of 740 on those of the previous year. The death rate per 1,000 of the mean population shows an increase of 0·69 per cent. on that of the previous year.

The principal causes of death were:—

Heart disease (all kinds)	1,052
Cancer (all kinds)	657
Senility	615
Congenital debility, &c.	491
Diarrhœa and Enteritis (under and over two years)	491
Tuberculosis (all parts)	371
Pneumonia	339

The infantile mortality for the year 1923 shows a slight increase of 0·35 per cent. on that for the previous year of 1922—viz., from 5·05 in 1922 to 5·40 in 1923.

NOTE.—The Curator of Intestate Estates is empowered to apply for an order to administer the Estate of any deceased person leaving real or personal estate who has died intestate, and who leaves no widow nor next of kin resident within the jurisdiction of the Court; also, when any person has died testate and appointed the Curator as executor, or leaving no executor, or no executor willing and capable of acting in execution of his Will; or when any person has died testate and the Court is satisfied that any of the effects of the deceased may probably be purloined, lost, or destroyed; and in a few other instances where urgency is required.

NOTE.—The amount actually realised bears but a small proportion to the amount sought to be recovered; but it must be borne in mind that in many cases the defendant, on a levy being made, becomes insolvent, and any property seized passes to the Official Trustee for the benefit of the Creditors, and consequently no sale by the Sheriff takes place. Many also of these writs of *fieri facias* were for large amounts, the suitors holding mortgages over and being in possession of the property seized, and were merely lodged for the purpose of obtaining the Sheriff's title for the conveyance of the interest, the purchase money being nominal.

* From 1883 number and tonnage of vessels calling at more than one port in Queensland during same voyage only counted once.

† Prior to 1907 the exports of wool have been taken as the production of wool, scoured being expressed as greasy on the basis that one pound of the former equals two pounds of the latter, except for the years previous to 1866, when greasy and scoured wools were not separated in the Customs returns.

‡ Six months ending 30th June only. § Financial year.
